"I just got off the phone with a new customer who was referred by one of my current customers. They started the conversation like this, 'Joel, I heard you were the guy to instruct me how to get software that makes it easy to print.' That is verbatim. I took it from there, walked them through the installation and setup and we're printing a \$1,000 job today!"

"When I ask clients, 'How did you hear about us?' 75% of the time the response is, 'I found you online.' If you want to increase your number of clients, I highly recommend you jump on your Springboard and click Support."
